

3/29/2010

Dear Bob,

We would like to voice
our opinion against the
Wind-Turbines. Besides
ruining the looks of every-
thing around them,
I saw a "horror" story
on TV of families affected
by them. First by
the large trucks, traffic,
etc. of
erecting
the
Turbines,
then

2-

by the constant "hum"
later on. One older
couple (even though the
turbines were way, way,
off in the distance)
couldn't sleep at night &
were always feeling sick
(except when they were
away on a vacation). They
had to sell their country
dream home. Guess who
bought it — the wind-
turbine people (probably to
stop a law suit) — We
don't want them!
